REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The instant application discloses a power saving operation control method and device. Prior art references teach a similar method and device but fail to disclose the method or device comprising the steps of: generating a power saving state canceling signal in accordance with the reference frequency divided signal and the comparison frequency divided signal; generating a first initializing signal for initializing the output of the step of dividing the frequency of the reference signal in accordance with the power saving state canceling signal; and generating a second initializing signal for initializing the output of the step of dividing the frequency of the input signal in accordance with the power saving state canceling signal" along with the remaining limitations of claims 1 and 3. Neither does the prior art teach a PLL frequency synthesizer comprising; "a canceling signal generator which generates a power saving state canceling signal in accordance with the reference frequency divided signal and the comparison frequency divided signal; a first initializing signal generator which generates a first initializing signal for initializing the reference signal frequency dividing unit in accordance with the power saving state canceling signal; and a second initializing signal generator which generates a second initializing signal for canceling initializing the comparison signal frequency dividing unit in accordance with the power saving state canceling signal" along with the remaining limitations of claims 5, 7 and 9.

Nor does the prior art teach a method of controlling a power saving operation comprising the steps of; "generating a power saving state canceling signal with the reference frequency divided signal so as to output a comparison result; and generating an initializing signal for initializing the

dividing the frequency of the reference signal or the frequency of the input signal in accordance with the power saving state canceling signal” as disclosed in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

CONCLUSION

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence B Williams whose telephone number is 571-272-3037. The examiner can normally be reached on Monday-Friday (8:00-5:00).
